**BASIC INFORMATION ABOUT STUDIES AT THE BASIC LEVEL** (not Music Ladders or workshops)

EMO's main artistic training and education is based on a wide range of studies. Its pedagogical curriculum consists of instrumental teaching, music theory and ensemble activity, including playing in orchestras. This might at some point require from the student several weekly lessons. It goes without saying that progress in

instrumental training demands also regular practicing at home. There is no hurry purchasing the instrument in advance. Teacher will advise you to find the right kind of an instrument. Pianists need a proper acoustic piano from the very beginning of their studies.
